alunatime.org

FLOODTIDE LISTENING POST by John Eacott and Andrew Baldwin. The post plays Floodtide notation generated from tidal data.

floodtide.com

In 1998, Trinity Buoy Wharf was an empty, derelict site. Now it is a place with studios for people in the creative industries, workspace for people who work to provide transportation on the river, classrooms for education, and indoor and outdoor spaces for arts events and a wide range of activities from conferences to product launches.

The brick buildings are the heritage structures that were built by and for Trinity House, the organisation that designed, built and maintained the navigational equipment, buoys, lighthouses and lightships that kept Britain's coastal water safe. The recent buildings were constructed to house the new creative industries using a simple, efficient and sustainable Container City™ system based on shipping containers.

Trinity Buoy Wharf is managed by Urban Space Management. The management office is open Mondays- Fridays 9am- 5pm. Trinity Buoy Wharf is open 7am - 7pm, every day apart from Christmas day.

EVENT SPACE

Trinity Buoy Wharf offers the charm, character and space of a former buoy manufacturing site. Our venues are suitable for corporate hire, weddings, launches, conferences, exhibitions, filming, photo shoots and dinner/dances.
